Undergraduate student in Information Technology at the University of Moratuwa, with coursework and projects covering programming, hardware interfacing, and software development. Actively engaged in building real-world systems that combine hardware and software concepts, while continuously developing technical and analytical skills through practical projects and self-learning.

🎓 Education

B.Sc. (Hons) in Information Technology

2024 – Present

University of Moratuwa, Faculty of Information

CGPA: 3.95 / 4.0

GCE Advanced Level, St. Anne's College, Kurunegala

2022

Physics (A) Combined Mathematics (B) Chemistry (B) Z-score: 1.6692

🧠 Skills

Programming Languages

C, Python, Java, JavaScript, TypeScript, PHP

Frontend Development

Next.js, React.js, Tailwind CSS, HTML5, CSS3

Backend Development

FastAPI, Node.js

Database

MSSQL, MySQL, MongoDB, PostgreSQL

Tools & Platforms

Git, GitHub, Linux, Arduino IDE, Flutter

Interpersonal Skills

Problem Solving, Time Management, Self-Learning, Teamwork

🧩 Competitions

2nd Runners-up – Medusa 2.0 (2025)

National cybersecurity CTF competition by ECSC, University of Kelaniya

Semi-Finalist – SPARK Challenge (2026)

ENTC Innovation Project Competition, University of Moratuwa

9th Place - SHERlock 2.0

Organized by IEEE WIE of IIT

Coding Contests Participation

- ALGOXPLORE 1.0
- MoraXtreme 9.0
- CodeRush 2022
- MoraXtreme 10.0

Projects

TeaBlendAI – AI-powered Tea Auction Platform

12/2025 – 06/2026

Industry Project | Inivois Global | Team Project | Next.js, FastAPI, MSSQL

TeaBlendAI is a Next.js and FastAPI-based web application developed to modernize the tea trading industry through a digital auction system and an integrated AI chatbot. It features secure role-based access, real-time management of live and scheduled auctions, and comprehensive seller dashboards backed by an MSSQL database, providing a highly efficient and automated marketplace that seamlessly connects tea producers with buyers.

ICITR 2026 Conference Website, Team Project | Next.js, Tailwind CSS, GitHub

06/2026 – Present

Developing the official website for the International Conference on Information Technology Research (ICITR), a leading research conference organized by the Faculty of Information Technology, University of Moratuwa. Contributing to the design and implementation of a responsive and modern web platform that manages conference information, speaker profiles, workshops, paper submission details, and event announcements for an international research community.

WIE Website 25/26 Term, Team Project | Next.js, Tailwind CSS, GitHub

07/2025 – 09/2025

Developed the IEEE WIE University of Moratuwa website to showcase the chapter's mission, events, and achievements. Built a responsive platform to promote their initiatives and empower women in engineering across Sri Lanka.

SandPlotter Smart Coffee Table - Hardware Project , First Year Hardware

08/2024 – 08/2025

Project | Arduino Uno, ESP32, GRBL, CoreXY, TFT Touch Display, WebSocket with Web Application, CNC Shield V3

Developed an interactive sand art coffee table capable of generating intricate sand patterns and custom text through a CoreXY motion system. Designed and assembled the motion mechanism using Nema 17 stepper motors, GT2 timing belts, A4988 drivers, and limit switches integrated with GRBL firmware running on an Arduino Uno. Implemented communication between an ESP32 and Arduino Uno to transmit G-code commands from both a TFT touch interface and a web-based control platform via WebSockets, enabling remote pattern selection and real-time sand art generation.

Farmify, Team Project | React.js, Firebase

06/2024 – 08/2024

Farmify is a React and Firebase-based web application developed to support farmers by connecting them with agricultural expertise. It features secure authentication, product listings, and real-time transaction updates, providing a reliable and user-friendly platform that helps farmers overcome challenges and improve accessibility to resources.

Volunteer Experience

ICITR Web Development Team 2026

Team 26

2026 – Present

Faculty of Information Technology,
University of Moratuwa

Mobile Application Development Team Member

Team 25/26

2025 – 2026

Faculty of Information Technology,
University of Moratuwa

IEEE WIE, Web Development Team

07//2025 – 09//2025 | University of Moratuwa

Faculty Coordinator – SEDS Mora Chapter

Team 25/26

2025 – 2026

Faculty of Information Technology,
University of Moratuwa
